

TURN YOUR MATERIALS INTO MONEY

DOMINATE YOUR JOB SITE
WITH A MOBILE CRUSHER THAT WORKS
AS HARD AS YOU!

“ RUBBLE MASTER
strives to be the
highest in the industry
as far as making
sure the customer
is happy – which
is me. ”

*Alfred Lauzon,
Northern Paving*

THE MOST VERSATILE, JOB-FRIENDLY SUITE OF MOBILE CRUSHERS AVAILABLE.

Since 1991, we've established ourselves as the world's leading crushing and screening experts. Our products are used by the most cutting-edge contractors and aggregate producers worldwide while being the #1 choice for those brand-new to crushing. We look at crushing in its entirety and design best-in-class every step of the way. *More than 3,000 happy customers can't be wrong.*

ON-SITE RECYCLING

Recycled materials are much cheaper than virgin materials. Without concrete & asphalt recycling you face tipping fees, trucking hassles, and high cost pressure.

CUSTOM CRUSHING

Offering crushing services is a great revenue stream, whether this is your mainline business or you take on occasional jobs to increase the utilization of your equipment.

AGGREGATE PRODUCTION

Low operating costs and ease of operation make you more money per produced ton while making the most burdensome parts of crushing less painful.

DOMINATE THE JOBSITE

LET RUBBLE MASTER TAKE YOU THERE.

At RUBBLE MASTER, we understand a smooth operation equals more profit. That's why our mission is to help you dominate the jobsite. No more losing money to high operation costs or wasting time with traditional material disposal processes. Instead, you take back control of your operations and get the job done right.

PERFORMANCE

Our mobile crushers provide the best throughput capacity in their class without sacrificing mobility. Do more, more efficiently.

**1-2-3
GO!**

OPERATE WITH EASE

We make the most nimble heavy equipment available. Our crushers make material processing easy. You can put any operator on our machine with confidence.

GO ANYWHERE, ANYTIME

RUBBLE MASTER machines are designed with mobility in mind, giving you the freedom to move anywhere, anytime.

CUT YOUR FUEL BILL UP TO 30%

RUBBLE MASTER's highly efficient diesel-electric drives cut your fuel bill up to 30%. Make more money per ton without sacrificing an ounce of power.

**PERFORMANCE
WITHOUT THE HASSLE.**

For more than 30 years, we've designed and manufactured our mobile crushers to deliver best-in-class performance without sacrificing mobility. Although they've grown in size, our design principles have remained the same: build smart, tough, sleek, and versatile machines for recycling and rock crushing.

“ RUBBLE MASTER has done a good job of making a compact crusher that can make a lot of tonnage. We have tried crushers that are bigger that do the same tonnage as our machine. **”**

*Calvin Schouten & Wiebren de Boer,
Schouten Excavating*

VERSATILITY

CRUSH A WIDE VARIETY OF MATERIALS WITH ONE MACHINE

SUPERIOR PRODUCT

COMPACTABLE & GRADABLE AGGREGATE

HIGH REDUCTION RATIO

UNIQUE CRUSHER DESIGN WITH HIGH PERFORMANCE

MEET YOUR SPEC

AGGREGATE SHAPE AND GRADATION THAT MEET SPEC

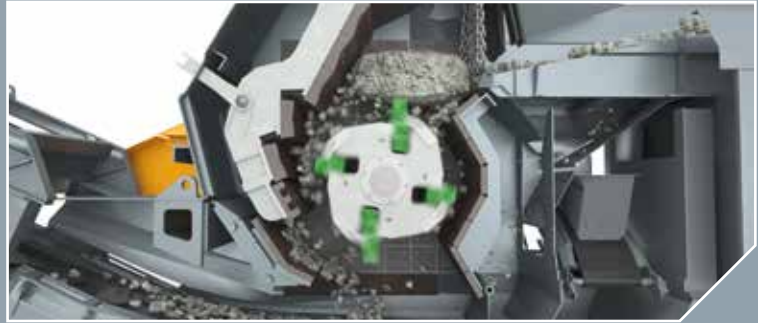

GET MORE DONE, EVERY HOUR WITHOUT CHANGING YOUR PROCESSES.

The superior geometry and design of our proprietary crusher box and drive give you highly efficient, unrivaled performance. Because the crusher box and auxiliary components come from a single mold, you get more done in a day.

RM RELEASE SYSTEM

Remove crusher blockages caused by oversize pieces such as large concrete slabs. It keeps you crushing and saves valuable time and improves your productivity. Once you have it you wouldn't like to miss it.

REBAR LIBERATION AND SEGREGATION

From the infeed to the discharge, everything is designed to reduce material blockages and conveyor belt damages.

SIMPLE CRUSHER SETTINGS

ADJUSTING THE CRUSHER SETTING TO ACHIEVE TOP PERFORMANCE IS EASY AND SAFE

GET MORE DONE IN A DAY

EVERYTHING IS WELL THOUGHT OUT TO MINIMIZE SETUP, SHUTDOWN AND MAINTENANCE TIME

EXCELLENT MATERIAL FLOW

SHORT AND SMOOTH EXIT CHANNEL REDUCES RISK OF MATERIAL BLOCKAGES AND DOWNTIME

LOAD DEPENDENT FEED

SELF-REGULATING FEEDER SPEED SUPPORTS OPERATORS TO ACHIEVE TOP PERFORMANCE

OPERATE WITH THE TOUCH OF A BUTTON.

We've taken the complexity out of mobile crushers. Because "safety and ease of use" is our top priority, we funnel every design and engineering decision through our special RM GO! Principle so no detail is missed. That means: no intense training is required, you are not risking safety, and make money from day one.

INTUITIVE CONTROLS

Simple controls, consistent color coding and clear troubleshooting routines assist operators to be more effective.

EASY MAINTENANCE

Generous and fast access to engine compartment, screen deck and crushing chamber make light work of your dailies.

RM XSMART TELEMETRY

PERFECT FOR ANY JOBSITE.

Contractors are facing thinner margins due to an increase in smaller jobsites, neighbors' complaints, and longer trucking times. One versatile RUBBLE MASTER machine can crush any on-site material volume, from just a few hundred tons to very high volumes, virtually putting money back into your pocket.

COMPACT CRUSHERS DELIVER THE SAME PERFORMANCE AS TRADITIONAL HIGH-MOUNT ENGINE CRUSHERS IN THEIR CLASS.

The radically different low-mount engine design allows for maximum performance without sacrificing mobility. Without a compact machine, you need larger trailers, larger job sites, and climb ladders with power tools and heavy wear parts all the time.

Turn your materials into money with **less hassle!**

HIGH-MOUNT ENGINE

LOW-MOUNT ENGINE

'91

THE ORIGINAL COMPACT CRUSHER

RUBBLE MASTER MANUFACTURED THE FIRST COMPACT CRUSHER IN 1991 CREATING A NEW CLASS OF MACHINES.

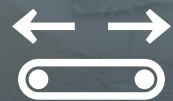

SMALL FOOTPRINT

THE PERFECT CRUSHER FOR INNER CITY, INDOOR AND ONSITE-CRUSHING PROJECTS

LOW NOISE EMISSIONS

SURPRISINGLY QUIET OPERATION. MOST QUIET CRUSHER FLEET IN THE INDUSTRY

TRACK & CRUSH

BACK-UP THE CRUSHER AND WINDROW THE MATERIAL WITHOUT LEAVING YOUR CAB

RM 70GO! 2.0

PERFECT FOR CRUSHING START-UPS

While many crushers are too big, and others are too small and can't produce spec material, the RM 70GO! 2.0 Compact Crusher is just right. It comes with all the features of a full-size crusher but with a compact footprint.

I like how simple it is. Even though it is a very high-tech machine, it is easy to deal with and not overwhelming.

Nick Hooper,
Dependable
Demolition

SPECS

Inlet opening	30" x 23" 760 x 600 mm
Crusher unit	RUBBLE MASTER impact crusher, 4 bar rotor, direct drive, single speed
Feed unit	2.6 yd ³ 2 m ³ asymmetric vibro feeder Hardox liners Feed control system for automatic crusher load-dependent conveying
Prescreening	39" x 28" 1,000 x 700 mm pre-screen grizzly with bypass to main discharge conveyor

Weight**	Approx 53,400 lbs 24,200 kg

* production performance depends on material, conditions apply
** weight depends on the installed options

STANDARD FEATURES

JOB STORIES

Material quality is key for utility & site-work contractor

Mike Reilly started crushing because he believed there was a future in getting rid of the product. Without having your own spec product, you struggle to use and sell your material. The RM 70GO! produces a consistent screened base material he needs on his jobs.

Dumpster business started small but grew fast with concrete crushing

Danny Salomon had a dumpster business when he realized that he was disposing of valuable material. If you can't recycle concrete, you are leaving money on the job. He started with a RM 70GO! and after a few years, he upgraded to a RM 100GO! and expanded into custom crushing.

RM 90GO!

ABSOLUTE BEST FOR ON-SITE CRUSHING

When crushing on-site you need mobility and performance. The RM 90GO! Compact Crusher is the complete package that allows you to tackle small and large crushing jobs alike so that you can crush on more jobs and grow your business faster.

I like the machine's compact size, low noise level, and most of all, its ability to produce three-quarters-minus product in one pass. We can process all of our own concrete, asphalt, brick, block and rock and make a three-quarters-minus usable product without having to leave a job site.

Ron Garofalo,
D.A.G. Mobile Aggregate Recycling

STANDARD FEATURES

JOB STORIES

Adding a scalping screen adds a faster spin on your crushing business

The RM 90GO! and an RM HS5000M 5' x 12' scalping screen are the perfect match for producing refined aggregates (e.g. #57 stone) and adding topsoil screening to your portfolio.

On-site crushing saves dollars right off the bat

New construction often requires the demolition of old structures. Without on-site crushing, contractors waste time and money with traditional methods of material disposal. RUBBLE MASTER Compact Crushers punch well above their weight class and turn your materials into money. It is a better way of doing business that maximizes profits and minimizes the trucking hassle.

RM 100GO!

HIGH-PERFORMANCE MEETS MOBILITY

When production counts, you can count on the RM 100GO! Impact Crusher. If you don't have a reliable machine, you're leaving money on the job. The high-performance impact crusher along with its simple & intuitive controls puts more product on the ground.

This machine is putting out product that people are waiting in line to buy.

STANDARD FEATURES

JOB STORIES

Insane 400 TPH asphalt crushing operation

Allen Kurre crushes for an asphalt plant that takes 60% RAP. If he fails to process the material fast enough, the plant needs to purchase virgin aggregates. A RM 100GO! and an RM MSC10500M incline screen maximize top- and base-coat production while minimizing wear.

From 1,000 ton farm & silo demo job to 80,000 ton factories

Schouten Excavating offers demolition and crushing services throughout western Ontario. The high throughput capacity and the extraordinary mobility of the RM 100GO! allows them to tackle small farm demo jobs and large custom crushing projects alike. Their latest crushing project includes processing more than 80,000 tons of concrete of the demolished Ford assembly plant in St. Thomas.

RM 120X

CRUSH DIFFERENT TO DOMINATE SERIOUS PROJECTS

Efficiency and the lowest cost per ton is the aim of the game. RUBBLE MASTER understands that when your machine is down, your crew is down, and you are bleeding money. That's why the status lighting, performance indicator, XL radio remote control, and telemetry app provide operators with more feedback to improve their crushing, foresee issues, and minimize downtime.

Everything is so much easier and readily available on this machine. There is no safety that you are risking. RM has designed everything to be as user-friendly as it can be all the way down to changing blow bars. My guys have thanked me time and time again for this machine vs the one we had before just because it is so much easier on them.

JOB STORIES

Crushing concrete footings along the wall

The replacement and extension of the fence along the US-Mexican border required the removal of 16 miles of concrete footings. The material is crushed on-site to build and maintain gravel roads along the border.

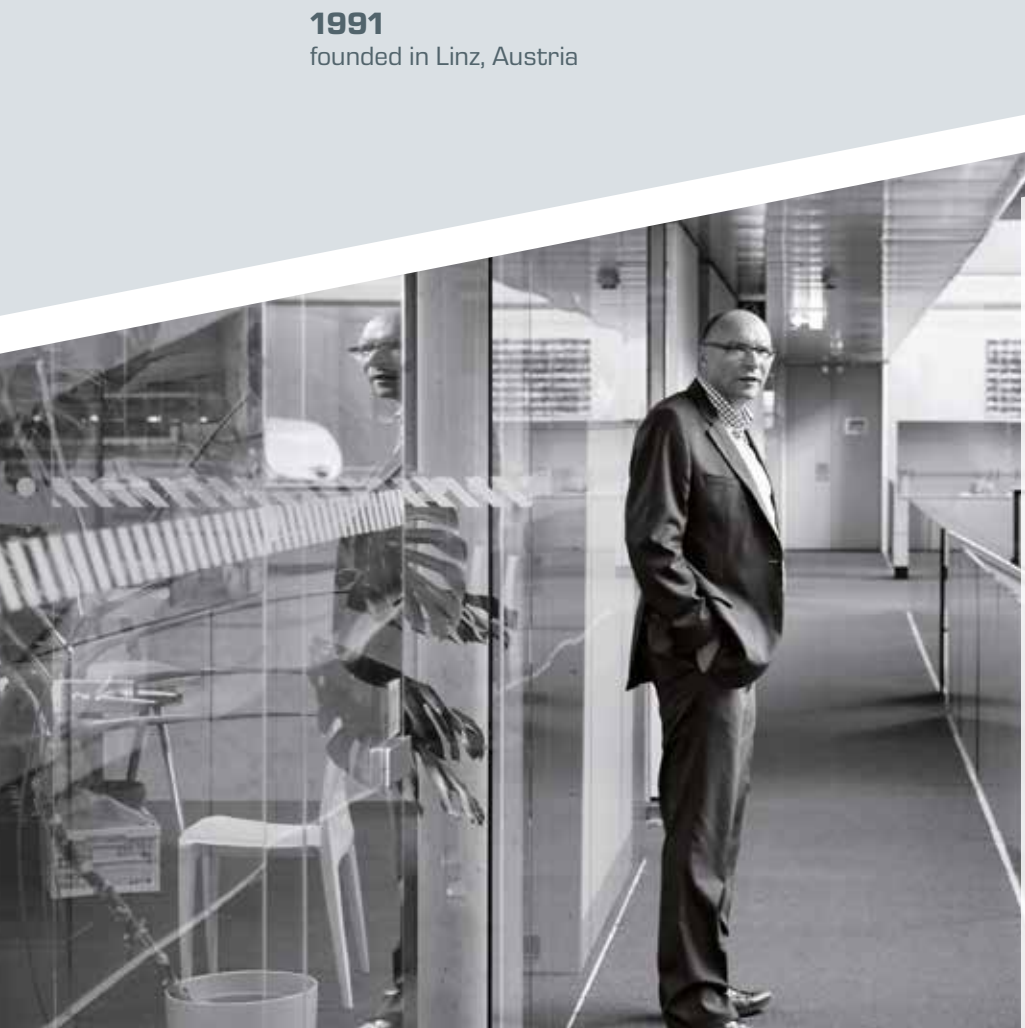

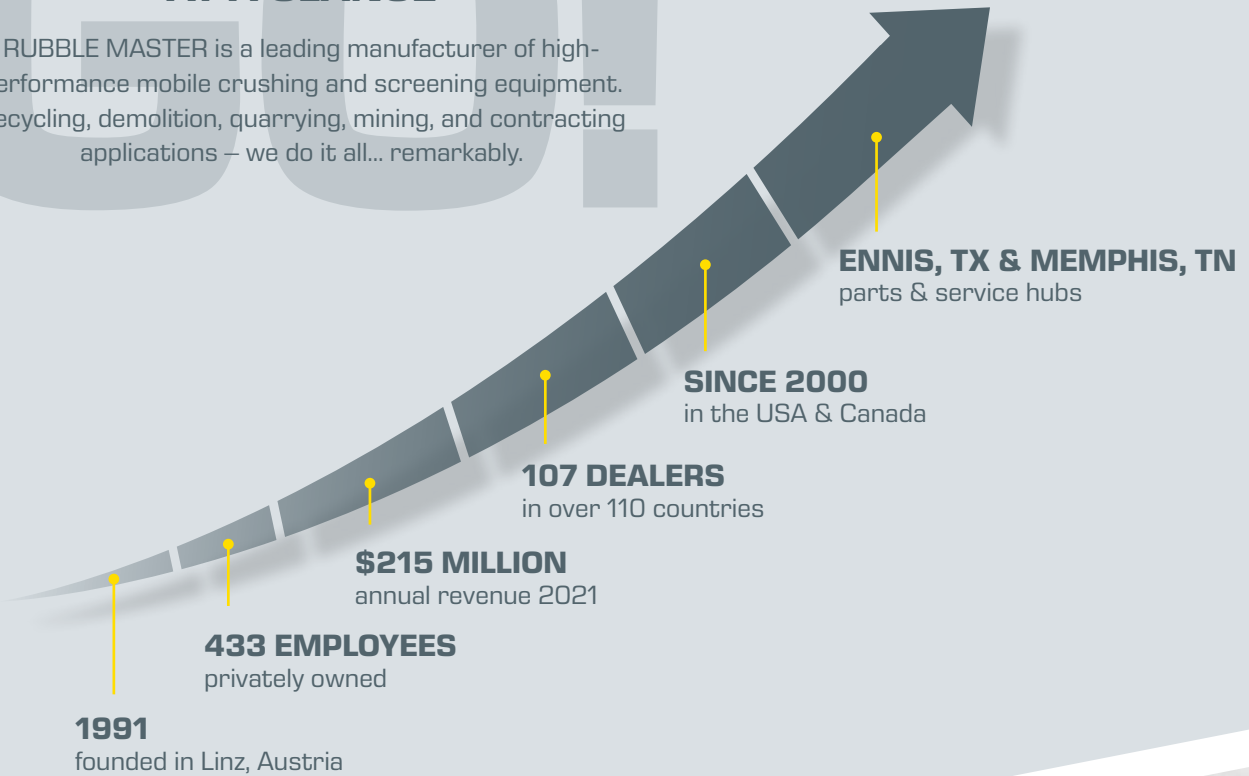

Outperform traditional jaw & cone-crushing spread

More equipment means more costs. The RM 120X Impact Crusher turns granite into a finished product without the need for a primary jaw crusher. This saves investment and operating costs so that you can make more money producing higher-quality aggregates.

RUBBLE MASTER AT A GLANCE

RUBBLE MASTER is a leading manufacturer of high-performance mobile crushing and screening equipment. Recycling, demolition, quarrying, mining, and contracting applications – we do it all... remarkably.

"It all started with a vision: we wanted to make it possible to recycle C&D waste materials on site. This innovative idea became an international success, and we are now the world leader in compact crushing. This folder provides you with an overview of our crushers, which make it possible to process C&D waste materials and natural rock on site profitably. Please contact us - we look forward to talking to you!"
